# Year 2 – Science Autumn 1

## Investigating Oakley

### Key knowledge about plants:

Plants grow from seeds and bulbs

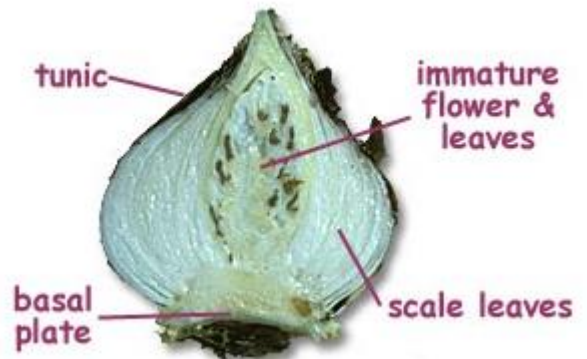

Seeds remain dormant until given water, light and food.

Bulbs remain underground all year – they contain a whole plant inside them.

The bulb protects & feeds the plant during the winter.

Plants need light, water and warmth to grow and survive.

Bulbs and seeds

Key vocabulary	
Word	Definition
Seed	A seed is the part of a seed plant which can grow into a new plant
Bulb	A bulb is the part of some plants that stores food while the plant is resting from growing in the winter.
