

# Go Jetters Continent of Europe

A **continent** is a large area of land that is often split from other areas of land by sea or mountains. There are seven continents in total. Europe is one of them. Some others are Asia, Africa and South America.

**Spain, Italy, France and Denmark are all in Europe.**

The Eiffel Tower is in Paris, France. It was made over 100 years ago and it used to be the tallest building in the world. It is made from metal. Lars loves the Eiffel Tower.

**Mount Etna** is in Italy. It is a volcano. When it erupts, Mount Etna can shoot hot lava into the air. Mount Etna makes ash which helps plants to grow.

## Did You Know?

One out of every ten people in the world live in Europe.

# Go Jettters Continent of Europe

1. What can split one continent from another? Tick two.
